

Unified retail software for supermarkets, grocery, and convenience stores

Get a 360° view of your customers and total control over your operations with a single platform.

It's time to ditch your disconnected IT systems, and unify your business with LS Central

Unify your data and processes

Gain total control. Maintain all your core business information and manage your business processes within one platform.

Unify your channels

Manage products, prices, campaigns, offers and more for your physical locations and e-commerce from one central place.

Unify your brands

Run a deli, café or bakery, or manage other retail and food service verticals within one platform.

Ideal for:

Supermarkets with a deli, café, or takeaway counter

Grocery chains with multiple brands

Hypermarket chains

Convenience stores

Designed for the grocery industry

- Get **all the industry functionality** you need, from scales integration to electronic shelf labels, to automated discounts on food close to expiry, and more.
- **Offer contactless shopping** options with self-service checkouts, click and collect, and the ScanPayGo app, which lets customers scan products and check out on their mobile device.
- Cut the queues with **high-speed checkouts**. The Point of Sale (POS) can handle high levels of throughput.

Your customers at the center

- Offer great **omni-channel** experiences with online shopping, click & collect, and in-store returns.
- Keep customers returning with **loyalty** programs and a wide variety of **offers and promos**.
- Manage registration to **events** like cooking classes at the POS.

Make your employees' work easier

- Manage on handheld devices **inventory tasks** like receiving, picking, counting, and labelling.
- **Access real-time** reports and analytics anywhere.

Optimal stock management

- Reduce the risk of out of stocks while keeping inventory levels low with the system's **automations**.
- Effectively replenish products with very **different lifecycles**, from fresh goods, to canned ones, to non-perishable items.

Centralized control

- Set prices, offers and promotions **centrally** for all online and in-store touchpoints.
- Track your KPIs and use LS Central's **intelligent insights** make smart business decisions.
- **Automate tasks** and eliminate manual data entry and human error.
- Run a successful chain and scale easily with a software **designed for growth**.
